SUBJECT **First Quarter 2010 Status Report**
Former ExxonMobil Jalk Fee Property
10607 Norwalk Boulevard
Santa Fe Springs, California
Site Cleanup No. 0203; Site I.D. No. 1848000

Dr. Chang:

At the request of ExxonMobil Environmental Services (EMES), on behalf of ExxonMobil Production Company (ExxonMobil), Environmental Resolutions, Inc. (ERI) has prepared this *First Quarter 2010 Status Report* for the above-referenced site. This report presents a summary of the activities completed during the first quarter 2010 and the activities planned for the second quarter 2010.

During the first quarter 2010, EMES transferred environmental consultant oversight responsibility for the subject site from Arcadis to Environmental Resolutions, Inc. On March 16, 2010, representatives of the California Regional Water Quality Control Board - Los Angeles Region (CRWQCB-LAR), EMES and ERI met to review the pending closure request and requirements for the subject site.

In a letter dated March 30, 2010, the CRWQCB-LAR stated that groundwater closure could not be granted at this time, and requested submission of a work plan for further groundwater investigation at the site.

During the second quarter 2010, ERI will prepare and submit a response to the CRWQCB-LAR for the requested work plan, and submit the required property owner documentation.

Groundwater monitoring and reporting for the two on-site wells is currently performed on an annual basis during the fourth quarter.

For any questions regarding this status report, please contact Mr. James Anderson at (805) 644-4157, extension 181805.

Sincerely,
Environmental Resolutions, Inc.

James Anderson
Senior Engineer
